

Jonathan House, AIA

LEED Green Associate

Architect

jhh@manning.xyz

Jonathan House grew up in South Louisiana and received his Bachelor of Architecture from Louisiana State University in 2013. After working for several years in residential architecture in Austin, Texas, he returned home to earn his Master of Architecture at Tulane University.

Jonathan believes that architecture should have an intimate appreciation for the built environment's influence on public space. His belief in the civic responsibility of designers has lead him to Manning Architects where he continues to learn how to develop design solutions that address local and national concerns. Jonathan has a passion for the details that make a design project as engaging to the hand as it is to the eye. He is skilled in architecture and representation software including Revit, AutoCAD, Adobe Creative Suite, 3ds Max, Maya, Rhino, SketchUp FormIt and Lumion.
