

Brianne Pegoraro

LEED Green Associate

Graduate Interior Designer

bnp@manning.xyz

Brianne contributes her design and research skills to the Manning team as a graduate of the CIDA-accredited interior design program at OSU. She is a LEED Green Associate Accredited Professional with a minor in sustainable design and is pursuing NCIDQ certification. Passionate about sustainability and volunteering, Brianne was appointed president of United States Green Building Council at OSU where she coordinated design charrettes, local stream clean-ups, and taught classes for students pursuing LEED and WELL credentials.

Brianne's experience working with national and international architectural firms as well as the retail design industry has given her a design understanding over a broad range of project types, including K-12, higher education, residential, and aviation to name a few. She enjoys creating diverse, healthy, and captivating environments for all people.
